

Aide-mémoire

Write down any terms, symbols, concepts, techniques, etc. that you don't yet understand or would like to grasp better. You can cross these out (and move them to the right-hand column) as you make progress: it might be 5 minutes after you first write the item down here, or it might be 5 minutes before the exam. This will help you to keep a record of the things you need to work on.

[illegible]
